

Flooring-in-rooms prompts — 50 modern interiors

How to use: attach your **bamboo flooring sample** image, then copy a whole block.

Each block tells the model to lay *that exact sample* as the room's floor. Save results like floor-banner-04.png, floor-support-21.png.

Shared rule baked into every block: **match the sample's plank colour, grain, width, sheen and direction faithfully; it is the real installed floor, in sharp focus, covering the foreground.**

50 · Bedroom with hanging light

Use the attached image as the exact wood/bamboo flooring – match its plank colour, grain, width, sheen and direction faithfully; it is the real installed floor, in sharp focus, filling the foreground. A vertical bedroom scene with the corner of a low linen bed, a woven pendant light, a plant and a tall window with soft morning light spilling across the planks. Restful, warm, editorial. Photorealistic interior photograph, 50mm, realistic textures, natural light. No people, no text, no logos, no watermark. Portrait 4:5, ultra-detailed, 1024×1280.
